ORGANIC WINE

At Natural Kitchen we believe there are many good reasons to drink organic & biodynamic wines.

Wine made using organic methods is a labour of love, requiring enormous effort. It is a real challenge to produce a healthy grape and only a drastic sorting of the best grapes will guarantee a good wine. Farmers work with nature, rather than against it, by boosting their vineyard's biodiversity.

An organic vineyard is a self-regulating ecosystem, which is able to combat problems naturally and eliminates the need for artificial & potentially toxic, chemicals.
